

Managed Services: Workforce MSP

Scope of Work:

Consolidate all Corporate, Sales, Manufacturing, Distribution and Logistics operations under one organization for North American Automotive Company.

Implement a regional staffing MSP solution to standardize contingent workforce management across the organization and ensure compliance.

Results and Outcomes:

- Supplier performance KPI's identified and measured.
- Program governance and reporting process implemented.
- Standardization of time card management and billing process.
- Implementation of cloud-based VMS process management and analytics application.
- Consolidation of supplier base while introducing diverse suppliers to its pool.
- Rate rationalization across all operations and divisions.
- ACA and EEOC compliance verification processes implemented.
- Standardization of requisition management, SME talent evaluation and onboarding practices.

Innovation and Best Practices:

- Transition from five different contingent workforce management processes and systems to one.
- Expanded MSP, VMS spend management.
- Developed real-time, evidence-based analytics dashboards.
- Implemented ERP Integrations for process automation.

Client:

North America Mobility Company

Period of Performance:

2015 - Present
